Against Open Bars on Sunday. the Editor of The Evening Star:

At a meeting of the members of the church and Sunday school of the Rhode Island Avenue M. P. Church last evening a resolution of vigorous protest against the resolution introduced by Representative Babcock of Wisconsin in the House of Rep-resentatives yesterday afternoon authorizing the District assessor, under certain conditions, to issue permits allowing the licensed places in the District of Columbia to remain open on Sunday, March 5, was passed and copies ordered sent to the chair-men of the two District committees.

The membership of the body assembled were of the unanimous opinion that such legislation is not only entirely useless and degrading, but its enactment would serve to detract largely from the comfort and enjoyment of the legion of visitors to the nation's capital; that at this place, of all others, where laws are wont to be made and supposedly kept, an example should be set to those visiting our city which should cause them to carry away with them im-pressions which should aid them in the upbuilding of their own communities. Such impressions cannot be created by throwing the licensed places of our beautiful city open to the lower elements of our own community and those visiting us. Every Christian man and self-respecting citizen of the District of Columbia should voice his hearty protest against such legislation. C. H. SPENCER.

One Patent to District Inventor. The inventive genius of the District of Columbia has fallen far behind the standard that has been maintained in the past

few years. But one patent was granted to a resident of this section today, out of the entire issue of 624 patents and designs, 577 of which were for American inventors and 47 for citizens of foreign countries. The local inventor who drew a patent today was Edward B. Finch, whose device is a speed and time regulating device for use upon sound-reproducing machines. BORN.
